A Research-Based System for **Teaching & Assessing** **Phonemic Awareness**

Kirsten Chansky, M.S.Ed.

ESSA Certified

sounds of success

A research-based, classroom-tested guide to
improve the instruction of
early literacy.

Grounded in the science of reading, Sounds of
Success focuses on the two most powerful
phonemic awareness skills: blending and
segmenting.

This manual includes explicit teaching
scripts, daily lessons, integrated practice,
quick activities, guided transfer pages, and a
full suite of assessment tools. Through the
use of these, students are helped to develop
strong phonemic awareness skills and to apply
these skills to reading and spelling.

Designed to support teachers and empower
learners, Sounds of Success represents a
new and lasting foundation for early
literacy education.
